School Tours

The school

Accademia Leonardo Salerno is a lively Italian cultural centre that welcomes hundreds of students of every nationality in a comfortable and familiar environment that is distinguished by courtesy, availability and professionalism. The school has large classrooms and is equipped with modern multimedia equipment, situated in a historic noble building in the centre of the city.

Our courses

The purpose of our courses is to create a communicative competence, that enables the student to express themselves using the language correctly, consistently and effectively. The team of teachers under the supervision of the educational director, guides the student and uses the Italian language beyond the strict context of the school and ready to interact naturally in everyday situations.

The primary purpose of the school is to enhance, promote and disseminate the Italian language and culture using the commitment of teachers carefully selected based on their educational, professional and communicative potential.

The school is a partner of the Università per stranieri in Siena and Perugia.

From the first day of class, the student comes into contact with the Italian language and is encouraged to develop and use the language in numerous interactive activities proposed by the teachers. Through interaction within the class group, the students actively participate in the lessons becoming the protagonists of their learning.

Salerno

Is the ideal destination for those who wish to live an interesting authentic Italian experience, without relinquishing the multiple occasions for leisure and fun. The city has a mild climate that is richly filled with beautiful beaches, landscape and artistic treasures. While far away from mass tourism it presents a hospitable community, like an ideal destination for those who want to combine studying with a pleasant holiday.

The bars, the restaurants and the nightclubs represent the meeting of the hundreds of young people that crowd in the centre until late in the evening. The city also has a rich cultural programme, above all in the summer period with open air concerts, theatre shows, museums and cultural events. The kindness and the availability of the people makes it even more pleasing stay, leaving the tourist with unforgettable memories.

Salerno is a well equipped yet small city with many places for leisure and social meetings.

The principle cultural and touristic attractions are easily reached by a pleasant walk as they are located in the small yet lively historic centre which makes it the perfect location for groups and school trips.

Salerno is also well situated to reach other important tourist destinations. It is just 15 minutes from the striking ruins of the ancient Roman city of Pompeii, around 50 minutes from Naples and the island of Capri. The city is well connected to the amazing Amalfi Coast, the enchanting Cilento Coast and the important archaeological site of Paestum.
